

## “Who-is-who” in PROSAFE and EMARS

Hong Kong, China

### Introduction

Hong Kong's population was approximately 6.9 million and with total area of approx. 1 104 square kilometres. People of Chinese descent comprise the vast majority of the population, with foreign nationals comprising 5%.

### Product Safety Legislation

- *Electricity Ordinance (Chapter 406)*
- Electrical Products (Safety) Regulation, that provides for the safety requirements of household electrical products supplied in Hong Kong.  
<http://www.legislation.gov.hk/eng/home.htm>

### Market Surveillance Practice

- *Electricity Ordinance (Chapter 406)*
- Electrical Products (Safety) Regulation. Under the control of the Regulation, any person who supplies electrical products should ensure that all electrical products concerned are covered by valid certificates of safety compliance and the certificates should be made available within a reasonable period for inspection upon request by this department.
